ZEIDERMAN, M. R., 427
ZEISS, JACOB, 160
ZIELINSKI, C. M., 49

ABDOMEN
cancer; carcinoma, colon, surgical treatment of, 399
surgery, for carcinoma of abdominal colon, 399
diagnostic, value of, in young women with possible appendicitis, 187
reconstruction, wall, early wound management, technique for, using polypropylene mesh, 435
viscera, upper, retraction, simple method for, in pelvic operations, 70
wall, reconstruction, polypropylene mesh, technique for early wound management, 435
wound, early, management, technique using polypropylene mesh reconstruction, 435
Acid
burns, stomach, treatment, in children, by pedicle pyloroplasty, 152
Aneurysms
aortic, dissecting, in pregnant women without Marfan disease, 463
Antibiotics
and fluid resuscitation, effect of, experimental, upon survival time, in intestinal ischemia, 103
intraperitoneal, and subcutaneous, value of, in reducing infection in clean contaminated operations of colon, 315
resistant strains of *Bacteroides fragilis*, emergence of, 175
subcutaneous, and intraperitoneal, value of, in reducing infection in clean contaminated operations of colon, 315
Aorta
aneurysms, dissecting, in pregnant women without Marfan disease, 463
anterior visceral branches, simple instrument occlusion of, during en bloc renal allograft procurement, 442

BACTERIA
Bacteroides fragilis, antibiotic resistant strains, emergence of, 175
Bile
flow, cholestasis, experimental, and endotoxemia, 205
Biliary tract
catheters, transhepatic, percutaneous, placement, intraoperative, safe and simple, 160
ducts, cancer; carcinoma, radical block resection of hepatoduodenal ligament, with double catheter bypass for portal circulation, 527
common, exploration, through cystic duct, 145
injury, during cholecystectomy, management of fistulas of biliary tract after, 33
roentgenography, and pancreas, endoscopic retrograde, in diagnosis and treatment of adult choledochal cysts, 423
fistula, management, after injury to bile duct, during cholecystectomy, 33
roentgenography, cholangiopancreatography, endoscopic retrograde, role of, in diagnosis and treatment of adult choledochal cysts, 423
Bladder
incontinence, stress, diagnosis, relative usefulness of physical examination, urodynamics and roentgenography of, 39
Blood
anemia, thalassemia, beta, splenectomy, indications and results, in 221 pediatric patients, 109
circulation, portal, radical block resection of hepatoduodenal ligament for carcinoma of bile duct with double catheter bypass for, 527
endotoxins, experimental, and cholestasis, 205
hemorrhage, esophageal varices, immediate treatment, tamponade or sclerotherapy, randomized trial of, 331
gastroduodenal, and perforation, in postoperative period, 389
varix, selective splenocaval shunt for, early experience with, 335
plasma, hyperlipidemia, pregnancy and pancreatitis, 469
sodium, combined with chemotherapy and irradiation, for treatment of carcinoma of esophagus, long term effects of, 319
transfusion, use of Rh positive in emergency situations, 229
venous, access devices, in pediatric oncologic patients, comparison of totally implanted reservoirs with external catheters as, 141
grafts, interposition, side branch uses in, 432
thrombosis, of lower extremities and pelvis, diagnosis, computed tomography, with contrast material, 12
volume, expansion, experimental, role of, in servere pre-eclampsia, 367
Blood pressure
experimental, volume, expansion, role of, in severe pre-eclampsia, 367
high, volume expansion, experimental, role of, in servere pre-eclampsia, 367
Blood vessels
arteries, carotid, excision, in general surgical training program, 307
carotid, occlusion or pseudo-occlusion, importance of arteriographic interpretation of, 119
replacement, using nonreversed saphenous vein, 155
hepatic, flows and portal venous, simultaneous measurement of, by transit time ultrasonic volume flowmetry, 65
occlusion, acute, role of intraoperative fibrinolytic therapy, 87
grafts, saphenous vein, interposition spiral, bypass, in bilateral simultaneous radical neck dissection, 79
shunt, splenocaval, selective, for variceal bleeding, early experience with, 335
surgery, technique, for placement of implantable access devices, thrombocytopenia, 429
veins, central, catheters, permanent, complications, prevention, 6
portal, flows, and hepatic arterial, simultaneous measurement of, by transit time ultrasonic volume flowmetry, 65
saphenous, nonreversed, for replacement of carotid artery, 155
spiral, interposition, graft, bypass, in bilateral simultaneous radical neck dissection, 79
subclavian, venipuncture, ultrasonic real-time guidance for, 239
surgery, splenocaval shunt for variceal bleeding, early experience with, 335
Breast
biopsy, needle localization, of nonpalpable lesion of, technique and guidelines for, 439
cancer; carcinoma, metastatic, hepatic, detection, liver function tests and ultrasound, preoperative, efficacy of in, 510
noninfiltrating, roentgenography, limitation, in identification of, 135
primary, Stage IV, exclusive

skeletal metastases, prognostic significance of, 303
roentgenography, limitations of, in identification, noninfiltrating carcinoma, 135
surgery, incison, fish shaped, 251
tumor, experimental, mechanism of reduction of, with carbon dioxide laser in, 493
Burns
stomach, acid, treatment, in children, by pedicle pyloroplasty, 152

CANCER
bile duct, carcinoma, radical block resection of hepatoduodenal ligament for, with double catheter bypass for portal circulation, 527
breast, carcinoma, metastatic, hepatic, detection, liver function tests and ultrasound in, preoperative, efficacy of, 510
carcinoma, noninfiltrating, limitations of mammography, in identification of, 135
primary, Stage IV, exclusive skeletal metastases in, prognostic significance of, 303
chemotherapy, and irradiation, combined with chemotherapy, treatment of carcinoma of esophagus, long term effects, 319
classification, Stage II, melanoma, results of radical dissection of groin in patients with, and histologically proved metastases of iliac or obturator lymph nodes, or both, 28
colon, carcinoma, abdominal, surgical treatment of, 399
esophagus, carcinoma, treatment, long term effects of hyperthermia combined with chemotherapy and irradiation for, 319
liver, carcinoma, duct, treatment, hepaticojejunostomy using mucosal graft, 163
carcinoma, hepatocellular, rupture, spontaneous, surgical treatment, 99
melanoma, Stage II, results of radical dissection of groin in patients with, and histologically proved metastases of iliac and obturator lymph nodes, or both, 28
metastasis, hepatic, detection, in carcinoma of breast, efficacy of preoperative liver function tests and ultrasound in, 510
lymph nodes, iliac or obturator, or both, histologically proved, and Stage II melanoma, results of radical dissection of groin in patiens with, 28
skeletal, exclusive prognostic significance of, in Stage IV, primary carcinoma of breast, 303
prognosis, significance of exclusive skeletal metastases in Stage IV primary carcinoma of breast, 303
radiation therapy, and chemotherapy, combined with hyperthermia, long term effects, for treatment of carcinoma of esophagus, 319
surgery, for spontaneous rupture of hepatocellular carcinoma, 99
treatment, for carcinoma of abdominal colon, 399
treatment, for carcinoma of esophagus, hyperthermia combined with chemotherapy and irradiation for, 319
Catheters
balloon, embolectomy, shear force gauge, 344
biliary, transhepatic, percutaneous, intraoperative placement of, safe and simple method of, 160
Broviac or Hickman, malpositioned, simple technique for redirection of, 246
double, bypass for portal circulation, radical block resection of hepatoduodenal ligament, for carcinoma of bile duct with, 527
external, comparison with totally implanted reservoirs, as venous access devices in pediatric oncologic patients, 141
slit, technique, easy approach, in intracompartmental pressure measurement, 518
venous, central, permanent, complications, prevention, 6
Collective review
Choledochal cysts, 447
Goblet cell carcinoids of appendix, 81
Modified and complete dissection in treatment of squamous cell carcinoma of head and neck, 259
Perianal extramammary Paget's disease, 359
Pregnancy after renal transplantation, 533
Primary tuberculous enteritis, 167
Cysts
choledochal, adult, role of endoscopic retrograde cholangiopancreatography in the diagnosis and treatment of, 423
ducts, exploration of common bile duct through, 145

DACRON®
grafts, removal of neointimal hyperplasia in, by oscillating ring stripper, 75
Diagnosis
and treatment, role of endoscopic retrograde cholangiography in, of adult choledochal cysts, 423
Disease
Crohn's, fistulous, operative management of, 223
gestational trophoblastic, study of, epidemiologic, in Saudi Arabia, 393
Marfan, dissecting aortic aneurysm in pregnant women without Marfan disease, 463
renal, end-stage, surgical treatment of parathyroid gland in patients with, 49
Drainage
percutaneous, of splenic abscess, review of, 211
Drugs
immunosuppressive, triple, therapy, in 93 consecutive patients, infection and rejection of, primary hepatic transplant in, 474

EMBOLISM
surgery, balloon catheter, shear force gauge, 344
Endocrine glands
neoplasia, multiple, progressive Zollinger-Ellison syndrome in, 415
Endoscopy
retrograde cholangiopancreatography, in the diagnosis and treatment of adult choledochal cysts, 423
Endotoxins
blood, experimental, and cholestasis, 205
infusion, in enterally versus parenterally fed volunteers, differential neutrophil activation before and after, 501
and pulmonary cell injury, 92
Enzymes
supplementation, correction of malnutrition and maldigestion with, in patients with surgical suppression of exocrine pancreatic function, 485
Epidemiology
study of, gestational trophoblastic disease, in Saudi Arabia, 393
Esophagus
anastomosis, and jejunum, stapled, technical aid in, 525
cancer; carcinoma, treatment, long term effects of hyperthermia combined with chemotherapy and irradiation for, 319
dilation, as outpatient procedure, 45
surgery, and jejunoduodenostomy, safe and rapid, after total gastrectomy, 72
varix, bleeding, treatment, immediate, tamponade or sclerotherapy, randomized trial of, 331
hemorrhage, selective splenocaval shunt for, early experience with, 335
Extremities
lower, venous, thrombosis, of pelvis, diagnosis, computed tomography, with contrast material, 12

FIBRINOLYSIS
intraoperative, role of, in acute arterial occlusion, 87
Fluids
ascitic, leakage, simple collecting system for leakage of, 515
experimental, resuscitation, and

antibiotic, effect of, upon survival time, in intestinal ischemia, 103
secretions, reinfusion of, from high output proximal stomas or fistulas, 372
volume, expansion of, experimental, in severe pre-eclampsia, 367

GALLBLADDER
roentgenography, intraoperative, predicting need for, after cholecystectomy, 347
surgery, management of fistulas of biliary tract after injury to bile duct during, 33
predicting need for intraopertive cholangiography after, 347
Gastrointestinal tract
appendix, inflammation, diagnosis, possible, laparoscopy, value of, in young women, 187
bleeding, obscure, retrograde intraoperative gastroscopy, 437
hemorrhage and perforation, in postoperative period, 389
Geriatrics
extensive gynecologic surgical procedure upon patients more than 75 years of age, 497
Groin
hernia, electromyographic evaluation of the inguinal region in patients with, 466
surgery, radical, results of, in patients with Stage II melanoma and histologically proved metastases of iliac or obturator lymph nodes, or both, 28

HEART
muscle, infarction, postoperative, surveillance for, after noncardiac operations, 407
output, measurements, effect of respiratory cycle on, by thermodilution, 420
pacemaker, management, safety precautions in, when electrocautery operations are performed, 311
risk, assessment, preoperative, use of multiple uptake gated acquisition scan for, 234
Hernia
inguinal, in adults, repair, with Prolene® mesh, 124
electromyographic evaluation of patients with, 466
obturator, 217
Hospital
general, district, experience, of surgery of gastric and duodenal ulcer, from 1970 to 1982, 53

IMMUNITY
-deficiency, virus, human, transmission, preventing, during operation, 287
virus, human deficiency, splenectomy for immune thrombocytopenia related to, 300
Infection
antibiotics, subcutaneous and intraperitoneal, value of in reducing clean contaminated operations of colon, 315
surgery, clean contaminated, of colon, value of subcutaneous and intraperitoneal antibiotics in reducing, 315
and rejection, primary hepatic transplant, 93 consecutive patients treated with triple immunosuppressive therapy, 474
Infusion
endotoxin, differential neutrophil activation before and after, in enterally versus parenterally fed volunteers, 501
re-, secretions, from high-output proximal stomas or fistulas, 372
Instruments and apparatus
catheters, biliary, transhepatic, percutaneous, intraoperative placement of, safe and simple method for, 160
slit, technique, easy approach, in intracompartmental pressure measurement, 518
venous, central, permanent, complications, prevention, 6
clamp, intestinal, improvement of, use of silicone elastomer for, 290
collecting system, simple, for leakage of ascitic fluid, 515
laser, carbon dioxide, mechanism of reduction of tumor recurrence with, in experimental mammary tumors, 493
mesh, polypropylene, use for reconstruction of abdominal wall, early wound management, technique for, 435
needle, biopsy, localization, of nonpalpable lesions of breast, technique and guidelines for, 439
new device to facilitate intestinal pull through, 158
oscillating ring stripper, removal of neointimal hyperplasia in Dacron® grafts by, 75
pacemaker, management, safety precautions in, when electrocautery operations are performed, 311
Plastibell® device, in neonatal circumcision, 341
Prolene® mesh, in repair of inguinal hernias in adults, 124
tube, chest, guided, safe, for thoracostomy, 517
chest, patency, maintaining, 521
ultrasound, and liver function tests, preoperative, efficacy of, in detecting hepatic metastasis in carcinoma of breast, 510
real-time guidance, for venipuncture of subclavian vein, 239
venous access devices, comparison of totally implanted reservoirs with external catheters as, in pediatric oncologic patients, 141
volume flowmetry, ultrasonic, transit time, simultaneous measurement of hepatic arterial and portal venous flows by, 65
Intestines
colon, cancer; carcinoma, surgical treatment of, 399
surgery, carcinoma, 399
clean contaminated, infection, reducing, subcutaneous and intraperitoneal antibiotics in, value of, 315
duodenum, and gastric, hemorrhage and perforation, in postoperative period, 389
hepato-, ligament, radical block resection of, for carcinoma of bile duct, with, 527
surgery, and esophagus and jejunum, safe and rapid, after total gastrectomy, 72
and pancreas, dumping syndrome after, 114
trans-, sphincteroplasty, factors affecting mortality, 23
ulcers, and gastric, surgery, district general hospital experience, from 1970 to 1982, 53
experimental, ischemia, effect of antibiotics and fluid resuscitation upon survival time in, 103
obstruction, anastomoses, healing, after, 324
transplantation, effect of pretransplant graft irradiation upon, 197
fistula, Crohn's disease, operative management, 223
or proximal stomas, high-output from, reinfusion of secretions, 372
ileum, surgery, continent, pregnancy and delivery in patients with, 61
ischemia, experimental, effect of antibiotics and fluid resuscitation upon survival time in, 103
jejunum, anastomosis, and esophagus, stapled, technical aid in, 525
and duodenostomy, and esophagus, safe and rapid, after total gastrectomy, 72
hepatico-, surgery using mucosal graft, in treatment of carcinoma of hepatic duct, 163
mesentery, mesh fixation of, for treatment of volvulus and recurrent stomal prolapse, 249
mortality; factors affecting, in transduodenal sphincteroplasty, 23
obstruction, volvulus, and recurrent stomal prolapse, treatment, mesh fixation of mesentery for, 249
small, experimental, obstruction, anastomoses, healing of, after, 324
fistula of proximal stomas of, high-output from, reinfusion of secretions, 372
surgery, for carcinoma of abdominal colon, 399

clamp, improvement of, use of silicone elastomer for, 290
colon, clean contaminated, infection, reducing, subcutaneous and intraperitoneal antibiotics in, value of, 315
duodenum, and jejunum, and esophagus, safe and rapid, after total gastrectomy, 72
and pancreas, dumping syndrome after, 114
of fistulous Crohn's disease, 223
ileum, continent, pregnancy and delivery in patients with, 61
pull through, new device to facilitate, 158
transduodenal sphincteroplasty, factors affecting mortality in, 23
ulcers, gastric and duodenal, district general hospital experience, 1970 to 1982, 53
transplantation, experimental, effect of pretransplant graft irradiation upon, 197
ulcers, duodenal, and gastric, surgery, district general hospital experience, 1970 to 1982, 53

KIDNEYS
disease, end-stage, surgical treatment of parathyroid gland in patient with, 49
transplantation, allograft, procurement, en bloc, simple instrument occlusion of anterior visceral branches of aorta during, 442

LIVER
cancer; carcinoma, of duct, treatment, hepaticojejunostomy using mucosal graft in, 163
hepatocellular, rupture, spontaneous, surgical treatment, 99
cirrhosis, hyperdynamic state and functioning hepatic cell mass in, 180
ligament, -duodenal, radical block resection of, for carcinoma of bile duct, with double catheter bypass, for portal circulation, 527
metastasis, detection, in carcinoma of breast, efficacy of preoperative liver function tests and ultrasound in, 510
physiology, test, preoperative, and ultrasound, efficacy of, in detecting hepatic metastasis, in carcinoma of breast, 510
resection, technique, simplified, banding methods as for, 77
surgery, and jejunostomy, using mucosal graft in treatment of carcinoma of hepatic duct, 163
for spontaneous rupture of hepatocellular carcinoma, 99
transplantation, primary, infection and rejection, in 93 consecutive patients treated with triple immunosuppressive therapy, 474

Lungs
function, cycle, effect of, on measurements of cardiac output, by thermodilution, 420
inflammation, aspiration, no elimination of, in neurologically disabled patients, with feeding gastrostomy, 383
injury, cell, and endotoxin, 92
Lymphatic system
lymph nodes, iliac or obturator, or both, metastases, histologically proved, and Stage II melanoma, results of radical dissection in patients with, 28

MUSCLES
electromyographic evaluation of inguinal region in patients with hernia of groin, 466
sphincter, anal, surgery, transduodenal, factors affecting mortality in, 23

NECK
dissection, radical, simultaneous, bilateral, interposition spiral saphenous vein graft bypass, 79
surgery, vesical suspension, technique, current, Gittes procedure, as improved simplification for, 243
Nerves
cranial, vagus, excision, selective, proximal, and pyloroplasty, in relation to changes in clinical signs and symptoms between 1969 and 1983, recurrence of peptic ulcer after, 271
obturator, hernia, 217
Nervous system
disabled patients, with feeding gastrostomy, no elimination of aspiration pneumonia in, 383
Nutrition
enteral, versus parenteral, fed volunteers, differential neutrophil activation before and after endotoxin infusion in, 501
mal-, and maldigestion, with enzyme supplementation, correction of, in patients with surgical suppression of exocrine pancreatic function, 485
parenteral, versus enteral, fed volunteers, differential neutrophil activation before and after endotoxin infusion in, 501

OVARIES
residual syndrome, 132

PANCREAS
acute, progress in, 282
diabetes, perioperative risk, assessment of, 293
enzymes, supplementation, exocrine function, with surgical suppression of, correction of malnutrition and maldigestion with, 485
inflammation, and hyperlipidemia and pregnancy, 469
postoperative, 377
roentgenography, and bile ducts, endoscopic retrograde, role of, in diagnosis and treatment of adult choledochal cysts, 423
surgery, and duodenum, dumping syndrome after, 114
suppression, of exocrine function, correction of malnutrition and maldigestion, with enzyme supplementation in patients with, 485
Parathyroid glands
surgery, in patients with end-stage renal disease, 49
Pediatrics
injury, acid burns of stomach in, treatment, by pedicle pyloroplasty, 152
and oncologic, comparison of totally implanted reservoirs with external catheters as venous access devices, 141
surgery, circumcision, Plastibell® device in, 341
spleen, indications and results, for beta thalassemia in, 109
Pelvis
surgery, simple method for retraction of upper abdominal viscera in, 70
thrombosis, venous, and lower extremity, diagnosis, computed tomography, with contrast material, 12
Penis
surgery, circumcision, neonatal, Plastibell® device in, 341
Peptides
primary and secondary, suppression of, with somatostatin analog in therapy of functional endocrine tumors, 453
Peritoneum
intra-, antibiotics, and subcutaneous, in reducing infection in clean contaminated operations of colon, 315

RADIATION
therapy, and chemotherapy, combined with hyperthermia, for treatment of carcinoma of esophagus, long term effects of, 319
experimental, pretreatment graft, effect upon intestinal transplantation, 197
thorax, wall, lesions associated with, 129
Roentgen rays
contrast media, diagnosis, computed tomography with, of venous thrombosis, of lower extremity and pelvis, 12
diagnosis, breast, noninfiltrating carcinoma of, limitations in, identification of, 135
carotid artery, occlusion or pseudo-occlusion, importance of, interpretation in, 119
computed tomography, of venous thrombosis, of lower extremi-

ties and pelvis, with contrast material, 12
endoscopic retrograde cholangiopancreatography in diagnosis and treatment of adult choledochal cysts, 423
gallbladder, intraoperative, predicting need for, after cholecystectomy, 347
relative usefulness, of urinary stress incontinence, and physical examination and urodynamics, 39

SCINTISCAN
multiple uptake gated acquisition, use of, for preoperative assessment of cardiac risk, 234
Sclerotherapy
treatment, for bleeding esophageal varices, or tamponade, randomized trial of, 331
Spleen
abscess, percutaneous drainage, review of, 211
surgery, caval, shunt, selective, for variceal bleeding, early experience with, 335
for immune thrombocytopenia, related to human immunodeficiency virus, 300
results, and indications, for beta thalassemia, in 221 pediatric patients, 109
Stomach
examination, retrograde, intraoperative gastroscopy in obscure bleeding of gastrointestinal tract, 437
pylorus, plasty, pedicle, in children, treatment of acid burns of in, 152
surgery, and recurrence of peptic ulcer after selective proximal vagotomy, in relation to changes in clinical signs and symptoms between 1969 and 1983, 271
surgery, feeding, in neurologically disabled patients with, no elimination of aspiration pneumonia in, 383
selective, proximal, and pyloroplasty, in relation to changes in clinical signs and symptoms between 1969 and 1983, recurrence of peptic ulcer after, 271
total, safe and rapid esophagojejunoduodenostomy after, 72
ulcers, gastric and duodenal, district general hospital, from 1970 to 1982, 53
ulcers, and duodenal, surgery, district general hospital experience of, 1970 to 1982, 53
peptic, recurrence, after selective proximal vagotomy, and pyloroplasty, in relation to changes in clinical signs and symptoms between 1969 and 1983, 271
Surgeon's library
Letters and friendship of Carrel and Cushing, 253
Pre-Halstedian and post-Halstedian history of surgical rubber glove, 350
Surgery
experimental, effect of, antibiotic and fluid resuscitation upon survival time, in intestinal ischemia, 103
effect of, pretransplant graft irradiation upon intestinal transplantation, 197
endotoxemia and cholestasis, 205
reduction of tumor recurrence with carbon dioxide laser in mammary tumors, 493
small intestine, anastomoses after obstruction, healing of, 324
gynecologic, extensive, upon patients more than 75 years of age, 497
injury to ureter during, 19
infection, reducing, in clean contaminated operations of colon, value of subcutaneous and intraperitoneal antibiotics in, 315
morbidity and mortality, factors affecting mortality in transduodenal sphincteroplasty, 23
postoperative study, abdominal colon, carcinoma of, surgical treatment of, 399
assessment of perioperative risk in patients with diabetes mellitus, 293
comparison of totally implanted reservoir with external catheters as venous access devices in pediatric oncologic patients, 141
correction of malnutrition and maldigestion with enzyme supplementation in patients with surgical suppression of exocrine pancreatic function, 485
dissecting aortic aneurysm in pregnant women without Marfan disease, 463
district general hospital experience of surgical treatment of gastric and duodenal ulcer from 1970 to 1982, 53
dumping syndrome after pancreatoduodenectomy, 114
early secondary suture versus healing by second intention of incisional abscess, 16
electromyographic evaluation of inguinal region in patients with hernia of groin, 466
emergence of antibiotic resistant strains of *Bacteroides fragilis*, 175
endoscopic retrograde cholangiopancreatography in diagnosis and treatment of adult choledochal cysts, 423
esophageal dilation as outpatient procedure, 45
exploration of common bile duct through cystic duct, 145
of fistulous Crohn's disease, 223
functioning hepatic cell mass and hyperdynamic state in cirrhosis, 180
gastroduodenal hemorrhage and perforation in, 389
guided chest tube for safe thoracostomy, 517
gynecologic, extensive, upon patients more than 75 years of age, 497
importance of arteriographic interpretation in occlusion or pseudo-occlusion of carotid artery, 119
indications and results for splenectomy for beta thalassemia in 221 pediatric patients, 109
limitations of mammography in identification of noninfiltrating carcinoma of breast, 135
long term effects of hyperthermia combined with chemotherapy and irradiation, for treatment of carcinoma of esophagus, 319
follow-up study of marsupialization technique for urethral diverticula in women, 191
management of fistulas of biliary tract after injury to bile duct during cholecystectomy, 33
myocardial infarction, surveillance for, after noncardiac operations, 407
no elimination of aspiration pneumonia in neurologically disabled patients with feeding gastrostomy, 383
obturator hernia, 217
ovarian residual syndrome, 132
pancreatitis, 377
post Nissen syndrome, 1
pregnancy and delivery in patients with continent ileostomy, 61
prevention of complications in permanent central venous catheters, 6
primary hepatic transplant, infection and rejection in 93 consecutive patients treated with triple immunosuppressive therapy, 474
prognostic significance of exclusive skeletal metastases in Stage IV primary carcinoma of breast, 303
progress in acute pancreatitis, 282
progressive Zollinger-Ellison syndrome in multiple endocrine neoplasia, 415
radiation-associated lesions of chest wall, 129
randomized trial of tamponade or sclerotherapy as immediate treatment for bleeding esophageal varices, 331
recurrence of peptic ulcer after selective proximal vagotomy and pyloroplasty in relation to changes in clinical signs and

symptoms between 1969 and 1983, 271
relative usefulness of physical examination, urodynamics and roentgenography in diagnosis of urinary stress incontinence, 39
removal of neointimal hyperplasia in Dacron® grafts by oscillating ring stripper, 75
repair of inguinal hernias in adults with Prolene® mesh, 124
review of percutaneous drainage in splenic abscess, 211
role of intraoperative fibrinolytic therapy in acute arterial occlusion, 87
selective splenocaval shunt for variceal bleeding, early experience with, 335
simultaneous measurement of hepatic, arterial and portal venous flows by transit time ultrasonic volume flowmetry, 65
splenectomy for immune thrombocytopenia related to human immunodeficiency virus, 300
surgical treatment, of parathyroid gland in patients with end-stage renal disease, 49
for spontaneous rupture of hepatocellular carcinoma, 99
use of Rh positive blood in emergency situations, 229
value of diagnostic laparoscopy in young women with possible appendicitis, 187
predicting need for intraoperative cholangiography after cholecystectomy, 347
preoperative evaluation, efficacy of liver function tests and ultrasound in detecting hepatic metastasis in carcinoma of breast, 510
preoperative study, assessment of cardiac risk, use of multiple uptake gated acquisition scan for, 234
use of multiple uptake gated acquisition scan for assessment of cardiac risk, 234
technique, aid in stapled esophagojejunal anastomosis, 525
balloon embolectomy catheter shear force gauge, 344
early wound management using polypropylene mesh reconstruction of the abdominal wall, 435
easy approach, to slit catheter, in intracompartmental pressure measurement, 518
fish shaped incision for mastectomy, 251
Gittes procedure, as improved simplification of current techniques for vesical neck suspension, 243
and guidelines for needle localization of nonpalpable lesions of breast, 439
hepaticojejunostomy using mucosal graft in treatment of carcinoma of hepatic duct, 163
interposition spiral saphenous vein graft bypass in bilateral simultaneous radical neck dissection, 79
maintaining chest tube patency, 521
mesh fixation of mesentery for treatment of volvulus and recurrent stomal prolapse, 249
new device, to facilitate intestinal pull through, 158
preventing transmission of human immunodeficiency virus during, 287
radical block resection of hepatoduodenal ligament for carcinoma of bile duct, with double catheter bypass for portal circulation, 527
replacement of carotid artery using nonreversed saphenous vein, 155
retrograde intraoperative gastroscopy in obscure bleeding of gastrointestinal tract, 437
review of Plastibell® device in neonatal circumcision, 341
safe, placement of implantable vascular access devices, thrombocytopenia, 429
and rapid, esophagojejunoduodenostomy after total gastrectomy, 72
and simple, intraoperative placement of percutaneous transhepatic biliary catheter, 160
side branch uses in venous interposition grafting, 432
simple, collecting system, for leakage of ascitic fluid, 515
instrument occlusion of anterior visceral branches of aorta during en bloc renal allograft procurement, 442
for redirection of malpositioned Broviac or Hickman catheters, 246
for retraction of upper abdominal viscera in pelvic operations, 70
simplified, banding method, for resection of liver, 77
suturing soft viscera using compression sutures, 522
treatment of acid burns of stomach, in children, by pedicle pyloroplasty, 152
ultrasonic real-time guidance for venipuncture of subclavian vein, 239
use of silicone elastomer for improvement of intestinal clamp, 290
training, general, carotid endarterectomy in, 307
Surgical pros and cons
148; 148-149; 149; 149-150; 150; 150-151; 151; 427; 427-428; 428
Sutures
compression, soft viscera, technique for, 522
secondary, early, versus healing by second intention of incisional abscess, 16
Syndromes
dumping, after pancreatoduodenectomy, 114
Nissen, post, 1
ovarian residual, 132
Zollinger-Ellison, progressive, in multiple endocrine neoplasia, 415

Test
unpaired t, calculation of, simple, 381
Thorax
pectus excavation, tube, patency, maintaining, 521
surgery, safe, guided chest tube for, 517
wall, lesions, radiation-associated, 129
Thrombocytopenia
immune, splenectomy for, related to human immunodeficiency virus, 300
safe technique for placement of implantable venous access devices in patients with, 429
Thrombosis
venous, of lower extremities and pelvis, diagnosis, computed tomography, with contrast material, 12
Transplants
experimental, intestinal, effect of pretransplant graft irradiation upon, 197
grafts, allografts, renal, en bloc, procurement, simple instrument occlusion of anterior visceral branches of aorta during, 442
Dacron®, removal of neointimal hyperplasia in Dacron® grafts by oscillating ring stripper, 75
mucosal, with hepaticojejunostomy, in treatment of carcinoma of hepatic duct, 163
venous, interposition, side branch uses in, 432
immunity, triple, therapy for, primary hepatic, 93 consecutive patients, infection and rejection in, 474
intestinal, experimental, effect of pretransplant graft irradiation upon, 197
liver, primary, infection and rejection in, 93 consecutive patients treated with triple immunosuppressive therapy, 474
rejection, and infection in, primary hepatic, 93 consecutive patients treated with triple immunosuppressive therapy, 474
Trauma
bile ducts, during cholecystectomy,

management of fistulas of biliary tract after, 33
pulmonary cell, and endotoxin, 92
Tumors
breast, experimental, reduction of recurrence of, with carbon dioxide laser, 493
endocrine cells, functional, therapy, suppression of primary and secondary peptides with somatostatin analog, 453

URETERS
injury, during gynecologic surgical procedure, 19
Urethra
diverticulum, technique, marsupialization for, long term follow-up study, in women, 191
Urinary tract
stress incontinence, diagnosis, relative usefulness of physical examination, urodynamics and roentgenography of, 39
Uterus
pregnancy, complications, gestational trophoblastic disease, epidemiologic study, in Saudi Arabia, 393
complications, severe preeclampsia, role of volume expansion in, 367
delivery, in patients with continent ileostomy, 61
dissecting aortic aneurysm, in women without Marfan disease, 463
and hyperlipidemia and pancreatitis, 469

VIRUSES
human immunodeficiency, splenectomy for immune thrombocytopenia related to, 300
transmission, prevention, during operations, 287

WOUNDS
abdominal, wall, management, technique, using polypropylene mesh, reconstruction, 435
abscess, incisional, early secondary suture versus healing by second intention, 16
ureter, during gynecologic surgical procedure, 19
